Downtown Development – December 7, 2020**

PUBLIC HEARINGS

**Item No. 2 Zoning Agreement Amendment – 308 Colony Street
 (Daniel McIntyre Ward)
 File ZAA 3/2020**

WINNIPEG PUBLIC SERVICE RECOMMENDATION:

1. That City of Winnipeg caveat 82-6346/1, be removed in respect of the subject properties at 308 Colony Street (SP LOT 4 PLAN 33124 WLTO in RL 84 and 85 Parish of St. James, Lot 51 Plan 258 WLTO (W Div) in RL 85 Parish of St. James), to better align the properties with the intent of the Multiple-Use zoning designation and the corresponding zoning regulations.
2. That the City enter into, execute and deliver an agreement to remove the caveat in accordance with Recommendation 1, and such other agreements as determined necessary by the City Solicitor and Director of Legal Services to implement the intent of the foregoing (the “Ancillary Agreements”).
3. That, the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

ADMINISTRATIVE REPORT

Title: ZAA 3/20 – 308 Colony Street

Critical Path: Standing Policy Committee on Property and Development, Heritage and Downtown Development – Executive Policy Committee – Council

AUTHORIZATION

Author	Department Head	CFO	CAO
D. Jopling	J. Kiernan	N/A	M. Ruta, Interim CAO

EXECUTIVE SUMMARY

The Public Service recommends removal of a 1976 City of Winnipeg caveat (82-6346/1), which limits density on two properties at 308 Colony Street.

Removal of this caveat will better align the properties’ development rights with the intent of the Downtown Winnipeg Zoning By-law’s Multiple-Use zoning district and the corresponding zoning regulations.

Removal of this caveat will allow a current application for a 20-storey mixed-use development to proceed.

RECOMMENDATIONS

1. That City of Winnipeg caveat 82-6346/1, be removed in respect of the subject properties at 308 Colony Street (SP LOT 4 PLAN 33124 WLTO in RL 84 and 85 Parish of St. James, Lot 51 Plan 258 WLTO (W Div) in RL 85 Parish of St. James), to better align the properties with the intent of the Multiple-Use zoning designation and the corresponding zoning regulations.
2. That the City enter into, execute and deliver an agreement to remove the caveat in accordance with Recommendation 1, and such other agreements as determined necessary by the City Solicitor and Director of Legal Services to implement the intent of the foregoing (the “Ancillary Agreements”).
3. That, the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

Removal of a caveat requires Council approval.

Removal of this caveat will ensure the properties' development rights are as intended under the *Downtown Winnipeg Zoning By-law's* Multiple-Use Sector.

The report is being submitted for the Standing Policy Committee's consideration at the Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning and Design Division are concurred in, the subject zoning agreement will be amended, the caveat will be removed, and the properties' bulk requirements will become as intended under *Downtown Winnipeg Zoning By-law 100/2004*.

HISTORY / DISCUSSION

In 1976, City of Winnipeg caveat 82-6346/1 was placed on the subject site (as shown on Figure 1, below). This caveat limits the height to 13 stories and limits the Floor Area Ratio (FAR) to 6.

On June 23, 2004, City Council approved *Downtown Zoning By-law 100/2004*, which designates the subject site and surrounding area as "M" Multiple-Use Sector. In this sector, the maximum FAR is 12, and there is no height limit.

The Multiple-Use zoning designation is intended to encourage the range of uses, sites, activities, and buildings typical to a diverse and vibrant central business district. This sector demonstrates a diversity of uses, a diverse built form, and can accommodate the highest density of all zoning districts downtown.

Both the applicant and the City were made aware of the caveat on the site during an application process for a new 156,000 square foot, 20-storey mixed-use (residential, commercial, and office) development fronting both Colony Street and Good Street.

The main floor would include commercial units facing Colony Street, with covered parking and building services facing Good Street. The second level would be medical offices, and the third level would contain amenities for 204 residential apartment units. An outdoor space would be available for building tenants on the third level.

The proposed development would comply with the FAR requirements for the Multiple-Use zoning district, and is compatible with the surrounding neighbourhood; high-rise multiple-use buildings are located to the north, south, and west of the site. These include 290 Colony (14 storeys), 320 Colony (14 storeys) and Colony Square (16 storeys).

The applicant is working with the Urban Design Advisory Committee, the City of Winnipeg Urban Planning and Design Division, and other City of Winnipeg departments to refine designs and ensure alignment with *OurWinnipeg* and *Complete Communities*.

In order to proceed with the development, the caveat must be removed.

Timely consideration of this request will ensure that external funding agencies are assured of the City's support, so development plans may proceed.

CONSULTATION

N/A

OURWINNIPEG POLICY ALIGNMENT

- *OurWinnipeg* recognizes Downtown as offering “one of the best opportunities to create complete, mixed-use, higher-density communities in a way that promotes sustainable practices”.
- *Complete Communities*, Winnipeg’s land use plan, directs the City to “promote and enable sustainable, high-density residential development in strategic locations downtown”.

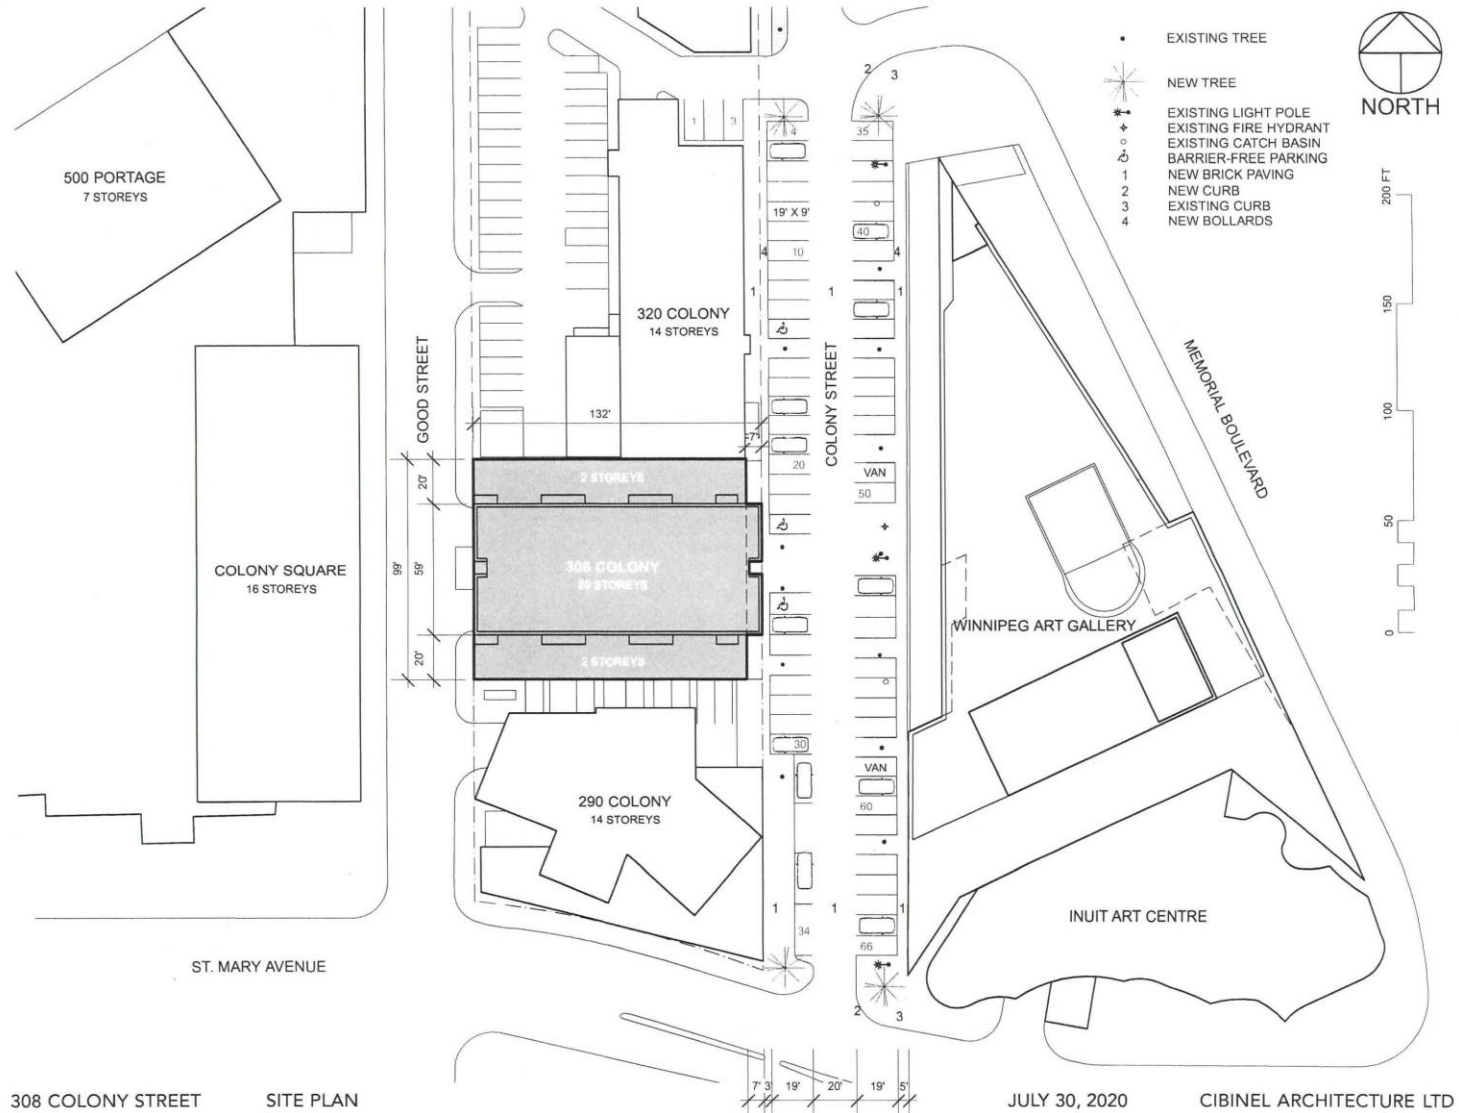

WINNIPEG CLIMATE ACTION PLAN ALIGNMENT

Removal of the 1976 caveat aligns with Climate Action Plan Strategic Opportunity # 4, which provides direction to “facilitate compact, complete development and increase density.”
