1. The amount of interim financing is shown net of the Federal and Provincial contributions that were received at Substantial Completion.
2. Provincial payment amount and timing are based on the funding commitment and projections provided from the Province.
3. The estimate for the Federal payment assumes there are remaining eligible costs to facilitate claiming the maximum contribution amount.
4. Final loan balances are estimated based on current project budget spending and assumes the Province caps funding to the project at approximately \$137 million.
5. Should the \$2.350 million be required, Council approval for the added borrowing authority will be required.
