- 4. That the Director of Legal Services and City Solicitor be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.

REASON FOR THE REPORT

- The applicant intends to withdraw the existing zoning agreement on the subject property or, at the minimum, withdraw clauses 2) and 4) that limit the site's permitted uses and requires a 10 ft. landscaped front yard.
- The applicant intends to establish an auto sales use on both the subject property and the adjoining property currently occupied by the Starlite Auto Mall.
- The subject property is zoned "C3" Commercial Corridor district.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning Division are concurred in, the zoning agreement on the subject property will be removed and replaced with a new one.

RECOMMENDATION: Approval

REPORT SUMMARY

- The applicant intends to withdraw the existing zoning agreement on the subject property or, at the minimum, withdraw clauses 2) and 4) that limit the site's permitted uses and requires a 10 ft. landscaped front yard. The zoning agreement only applies to the subject property and not the adjoining property that will comprise the majority of the future car dealership.

- The applicant intends to establish an auto sales use on both the subject property and the adjoining property currently occupied by the Starlite Auto Mall.
- The subject property is zoned “C3” Commercial Corridor district.

SITE DESCRIPTION

- The subject property is located on the south side of Regent Av W between Starlight Dr and Owen St in the Regent neighbourhood of the Transcona ward.
- The site is triangular-shaped and is 15,149 sq. ft. in area, with 277 ft. of frontage along Regent. It is occupied by a small, one storey gas kiosk and pumps. The site is zoned “C3” Commercial Corridor district.
- Adjacent properties include auto sales uses to the north and west zoned “C3”, a Co-Op gas station and convenience store to the east across Owen St zoned “C3”, and the Starlite Auto Mall, featuring a number of auto-oriented businesses, to the south zoned “C3”.

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant intends to withdraw the existing zoning agreement on the subject property or, at the minimum, withdraw clauses 2) and 4) that limit the site's permitted uses and requires a 10 ft. landscaped front yard. The zoning agreement only applies to the subject property and not the adjoining property that will comprise the majority of the future car dealership.
- The applicant intends to establish an auto sales use on both the subject property and the adjoining property currently occupied by the Starlite Auto Mall.
- Plans for the site's redevelopment were not submitted at the time of application.

BACKGROUND

DAZ 207/79A

- The subject property was originally rezoned in 1979 to accommodate a two storey commercial building with various retail and office uses.
- The rezoning was approved subject to the applicant entering into a zoning agreement with the City. It prescribes the following:
 - The following uses shall not be permitted:
 - Amusement enterprises including a billiard or pool hall, bowling alley, boxing arena, dance hall, theatre, or the like.
 - Automobile service station
 - Automobile and trailer sales areas.
 - Baseball or other stadium.
 - Baths, public.
 - Commercial club.
 - Business college or private school operated as a commercial enterprise.
 - Drive-in businesses where persons are served in automobiles such as refreshment stands, restaurants, food stores, banks, and the like.
 - Drive-in theatre.
 - Hotel.
 - Ice storage house.
 - Frozen food lockers.
 - Public garage.
 - Rescue mission or temporary revival church.
 - Tire shop.
 - Tourist court.
 - Trailer camp.
 - Pawn shop.
 - Upholstery shop.
 - Auditorium.
 - Sign painting shop.
 - Storage building for household goods.
 - Banners, pennants, spinners, flashing lights, colour lights, or other similar advertising or attention getting devices.
 - No building or structure shall exceed two storeys.
 - That the northernmost 10 ft. of the property shall be landscaped.
 - That the owner shall construct a 2.5 ft. tall wood fence along the south limit of said landscaping.
 - That all parking and loading areas shall be paved with asphalt or concrete.

- Plan approval to the East Kildonan-Transcona Community Committee.

ZAA 10/81

- In 1981, the zoning agreement was amended to allow for a small gas kiosk with three pumps. This kiosk was not permitted to provide any repair service.

ANALYSIS AND ISSUES

OurWinnipeg and Complete Communities Direction Strategy

- The Complete Communities Direction Strategy is one of four direction strategies supporting OurWinnipeg, the city's new long-range development plan, and is intended to gain statutory authority as a secondary plan. The strategy is intended to serve as a "playbook" to guide land use and development in Winnipeg. It received third reading at City Council on July 20, 2011, and became effective on August 17, 2011.
- Regent Av W is designated as a "Regional Mixed Use Corridor" in Complete Communities' Urban Structure map. These are major regional arterial roads intended to serve as a link between Downtown and one or more Regional Mixed Use Centres or major activity areas. Given their capacity to accommodate both large volumes of automobile traffic as well as high frequency public transit, Corridors offer the potential to accommodate intensification over the long term.
- Policy directions for Corridors include:
 - Focus a broad mix of residential, employment, and retail development within strategic locations along Corridors. Promote the highest levels of intensification at significant intersections. Between each centre, lower intensities of commercial, residential, and mixed use development are appropriate.

Zoning

- The Commercial Corridor (C3) district is intended primarily for uses that provide commercial goods and services to residents of the community in areas that are dependent on automobile access and exposed to heavy automobile traffic, but not including regional shopping malls or regional shopping areas. These commercial uses are subject to frequent view by the public and visitors to Winnipeg, and they should provide an attractive appearance with landscaping, sufficient parking, and controlled traffic movement. C3 districts are generally located along portions of arterial streets where lot depths are 200 feet or greater, or at arterial/arterial intersections.

Figure 2: Zoning map of subject property and surrounding neighbourhood

- Section 62 of Zoning By-law No. 200/06 prescribes all permitted principal uses in each zoning district. In the “C3” district, the following uses are permitted:

Permitted	Conditional
Assisted living facility	Boat dock, public access
Community/recreation centre	Hospital*
Library	Private club, not licensed
Post office/carrier depot	Race track
Protection and emergency services	Sports or entertainment arena/stadium, outdoor

Day care centre*	X-rated store*
Place of worship*	Advertising sign
Cultural centre	Bus depot
Gallery/museum	Commercial marina
Amusement enterprise, indoor	Transit station
Auditorium/concert hall/theatre/cinema	Fleet services
Hall rental	
Sports or entertainment arena/stadium, indoor	
Studio, radio/TV/motion picture broadcast and production	

Amusement enterprise, outdoor Hostel Hotel or motel Animal hospital or veterinary clinic Kennel Drinking establishment Restaurant Call centre Office Research institution Personal services Medical/dental/optical/counseling clinic Retail sales* Auction room Landscape or garden supplies Supermarket Auto/light truck/motorcycle, repair and service* Auto/light truck/motorcycle, sales and rental* Auto parts and supplies, sales Car wash Drive-in or drive-thru* Fuel sales* Parking, structured Parking, surface Utility facility, minor* Landscape/garden contractor or production Mini-warehouse, self-storage* Recycling collection centre	
* - Subject to use specific standards	

Figure 3: All permitted and conditional uses in the “C3” district

- Section 148 of Zoning By-law No. 200/06 prescribes the following dimensional standards for the “C3” district:

Min./Max. Front Yard (ft.)	Min. Rear Yard (ft.)	Min. Interior Side Yard (ft.)	Min. Corner Side Yard (ft.)	Max. Height of Building (ft.)	Max. Floor Area Ratio
25 / NA	25	0*	25	49	1.5
* - Where a side or rear lot line in a commercial or institutional zoning district abuts a side or rear lot line of an R1 or R2 zoning district, a yard of 10 feet must be provided along the side or rear lot line in the commercial or institutional zoning district. The 10 foot side yard must be landscaped pursuant to sections 188 through 193 and must not be used for parking or loading areas, storage of refuse or materials, or commercial activities of any kind.

Compatibility and site design issues

- Generally speaking, the Urban Planning Division does not object to a vehicle sales use on the subject property, as such a use is compatible with the surrounding neighbourhood. This portion of Regent Av W is of an auto-oriented commercial character, with many other car dealerships.
- The zoning agreement in question only applies to the subject property.
- If it applied to the entirety of the future car dealership site, plan approval could be applied to address the following concerns:
 - Compatibility with surrounding residential development:
 - A significant landscaped screen should be provided along the rear property line. This screening should provide a dense row of coniferous trees.
 - The applicant should provide a lighting plan that demonstrates how light trespass onto adjacent residential properties will be minimized, particularly overnight.
 - High quality site design:
 - Ample, high quality landscaping in required yards as well as internal to the site. This should include low-lying landscaping in the front yard that, while still providing visibility of the dealership's merchandise, enhances the Regent Av streetscape. Landscaped islands should be provided internal to the site as well. It is also possible to create landscaped features to showcase particular vehicles

Figure 5: Examples of design features that can be incorporated into the site

- Building location and design.
- The location and design of the site's garbage enclosures. The garbage enclosure should match the architectural detailing of the primary building.
- The location and design of accessory signage. Any free-standing sign should have substantial landscaping at its base.
- The location and design of any on-site fencing. Any front and side yard fencing should be constructed of wrought iron or a similarly high-quality material.

RECOMMENDATION

By and large, the Urban Planning Division recognizes that the proposed development is consistent with the surrounding context, as there are many car dealerships along Regent Av W already.

It is important to note that the zoning agreement only applies to the subject property. A requirement for plan approval cannot be extended over the larger site that will form the future car dealership.

Looking at the larger site, the Urban Planning Division would like to see the following items addressed:

- Significant landscaping along the rear property line, likely in the form of a dense row of coniferous trees.
- The applicant should provide a lighting plan that demonstrates how light trespass onto adjacent residential properties will be minimized, particularly overnight.
- That the site be developed to a high standard, particularly given Regent Avenue's status as a Regional Mixed Use Corridor. This would include high quality landscaping along required yards as well as internal to the site, as well as building design, garbage enclosures, signage, and fencing.

It is recommended that a number of land uses be restricted on the subject property that would not be compatible along a Regional Mixed Use Corridor such as Regent.

In order to reduce visual clutter along Regent, a condition restricting various forms of excess signage is recommended to be included in the zoning agreement.
