The project reached Substantial Performance on June 11, 2019. The fire pump certification is complete, expansion deficiency work continues and the treasury renovation deficiency work is ongoing. Transit has begun moving staff and equipment into the addition.

The Advisory Committee has reviewed this report and recommends that the report be sent to the Standing Policy Committee on Finance.

RECOMMENDATIONS

That the financial status of the Expansion of Transit Vehicle Overhaul and Maintenance Facilities, as contained in this report, be received as information.

REASON FOR THE REPORT

The Asset Management Administrative Standard FM-004 requires all projects with a total estimated cost of \$23 million (2019) or more report quarterly to the Standing Policy Committee on Finance. This threshold is adjusted annually for construction inflation as

part of the annual Capital Budget approval. The Standing Policy Committee on Finance may also request reporting on any capital project.

IMPLICATIONS OF THE RECOMMENDATIONS

No implications.

HISTORY/DISCUSSION

See Appendix C – Key Project Events (History)

<u>Risk</u> (Update from last report)

Delays in receiving parts to correct electrical deficiencies could prevent achieving Total Performance on target date.

| Table 3 – | Significant | Risks | and | Mitigations | Strategies |
|-----------|-------------|-------|-----|-------------|------------|
| | | | | | |

| Significant Risks and | Mitigation Strategies |
|---|---|
| Risk Statement and Explanation | Risk Mitigation Management Plan |
| New: | |
| Electrical deficiencies could add cost and schedule risk. | Thorough vetting of pricing. |
| Ongoing: | |
| The maintenance facility operates 24 hours per day, 365 days per year and the efficiency of the operation cannot be compromised. | |
| Mitigated: | |
| Existing equipment or systems infrastructure may be determined by Authority Having Jurisdiction (AHJ) as non-compliant with current codes, and could impact cost and schedule. Ex. Installation of a new Paint Booth could require a code upgrade to the existing electrical feed. | |
| Schedule risk due to security system installation. | Secure system is fully installed. |
| Schedule risk due to shops equipment relocation. | Substantial Performance dependent on strict adherence to established relocation schedule will reduce schedule risk. |
| Inadequate water flow and pressure from City watermain for sprinkler system. | Fire pump to boost flow and pressure has been installed. |
