12(2) When paid parking applies to a parking space, a vehicle may be parked in that space for up to 30 extra minutes as long as the fee for parking in that space during that extra time has been paid.

12(3) If a disabled person's parking permit is being used and displayed in a vehicle in accordance with *The Highway Traffic Act* and the regulations under that Act, the vehicle may be parked in the same space for up to four hours if paid parking does not apply to that space or if the maximum fee that may be paid at one time for parking in that space has been paid.

12(4) The limits in subsections (1) to (3) apply even if the period of time for which a parking fee has been paid has not yet expired.

12(5) Subsections (2) and (3) do not authorize parking in a space during any time that parking or stopping in that space is prohibited by a traffic control device.

12(6) During any period throughout which a parking time limit applies to a parking space, no vehicle may be parked more than once per day on the same side of the block that includes that space.

12(7) During the period to which an order under section 63 (lifting of time-limit restrictions) applies to a paid parking space, subsections (1) to (3) do not apply to any vehicle parked in that space other than a large vehicle.

- (b) the payment is evidenced by
 - (i) a parking meter that indicates that the period for which the fee has been paid has not yet expired,
 - (ii) a receipt that indicates a period of time that has not yet expired is displayed in a manner that makes the time of expiry clearly visible from the outside of the vehicle, or
 - (iii) a valid prepaid parking voucher that applies to the time the vehicle is parked there is displayed in a manner that makes the date and start time clearly visible from the outside of the vehicle.

14(2) Clause (b) does not apply if the owner or operator of the vehicle uses a method of payment approved by the COO to charge the parking fee to a credit card account by means of an electronic communication that identifies

- (c) the permit will be revoked if the permit holder fails to respond as set out in the notice.

35(3) If the permit holder has failed to respond as set out in the notice, or the response is not satisfactory to the COO, the COO may revoke the permit by written notice to the permit holder.

35(4) If a payment arrangement entered into with the COO in response to a revocation notice is not complied with, the COO may revoke the permit by written notice to the permit holder. Subsections (2) and (3) do not apply to such a revocation.

The owner of the vehicle must ensure that the vehicle is removed from the street within specified time.

65(2) If the vehicle is not removed from the street before the time specified in the notice expires, the COO may

- (a) cause the vehicle to be removed from the street; and
- (b) cause the impoundment, storage, destruction or other disposition of the vehicle as he or she considers appropriate in the circumstances.
