The East Kildonan-Transcona Community Committee provided the following supporting reasons for its recommendation:

1. This is a neat infill development of a portion of land between Bonner and the Arrowwood Headmaster development, it's the extension of Cindy Klassen Way. Lot of different people participating with severing their rear lots to make this happen. This is important for connectivity and for the legal roadway to be created. I'd like to thank the applicant for working with the residents and developers in such as to make this particular logical conclusion of this area complete.

REASONS FOR REPORT

This report is required because a proposed plan of subdivision and rezoning application requires a public hearing as per the *Development Procedures By-law* and *The City of Winnipeg Charter*.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning and Design Division are concurred in, the proposed plan of subdivision and rezoning can proceed in accordance with Schedule “A” to this report.

HISTORY

On December 16, 2021, Council approved DASZ 34/2021. Figure 1 shows that this proposal would create several “R1-M” Residential Single-Family (Medium) lots and some “R1-L” Residential Single-Family (Large) lots (once the plan of subdivision and rezoning process is completed).

Of these already approved lots, Lots 1, 2, 10, and 11 are abutting the subject property, and include the following width and area:

- Lot 1 width is 54.8 feet and lot area is 5351 square feet
- Lot 2 width is 36.6 feet and lot area is 3656 square feet
- Lot 10 width is 54.8 feet and lot area is 5993 square feet
- Lot 11 width is 58.3 feet and lot area is 6694 square feet

OURWINNIPEG POLICY ALIGNMENT

The Key Direction of *OurWinnipeg* that applies to the subject site states:

Enhance the quality, diversity, completeness and sustainability of stable neighbourhoods and expand housing options for Winnipeg's changing population.

The proposed plan of subdivision and rezoning application aligns with this Key Direction and with *OurWinnipeg* in general because it would facilitate a development that would increase the supply of new single-family dwellings in a location that is transforming from a rural residential area to an urban/suburban area with the full range of municipal infrastructure and public transit service.

WINNIPEG CLIMATE ACTION PLAN ALIGNMENT

Strategic Opportunity #4 of the *Winnipeg Climate Action Plan* states: “Facilitate compact, complete development and increase density.”

The proposed plan of subdivision and rezoning application aligns with this Key Direction and with *the Winnipeg Climate Action Plan* in general because, as stated above, it would facilitate a development that would increase the supply of new single-family dwellings in a location that is transforming from a rural residential area to an urban/suburban area with the full range of municipal infrastructure and public transit service.

ANALYSIS AND ISSUES

OURWINNIPEG AND COMPLETE COMMUNITIES

OurWinnipeg is the City's development plan and *Complete Communities* is a "Direction Strategy" of *OurWinnipeg* that provides additional directions and policies on land use and development in the city.

The Key Direction of *OurWinnipeg* and *Complete Communities* that applies to the Recent Communities policy area is in the Areas of Stability sections of these plans. It states:

Enhance the quality, diversity, completeness and sustainability of stable neighbourhoods and expand housing options for Winnipeg's changing population.

Certain policies under Direction 1 of the Areas of Stability section of *Complete Communities* apply to the proposal. They state:

- *Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complementary to the existing scale, character and built form.*
- *Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.*
- *Focus housing growth to areas that have municipal service capacity to support intensification, in addition to commercial and recreational amenities.*

- *Support Complete Communities by ensuring diverse and high quality housing stock.*

The plan of subdivision and rezoning application complies with the aforementioned Key Direction and policies for the following reasons:

- The site is in an area transitioning from rural residential to urban and suburban residential uses with the full range of municipal infrastructure.
- Public Transit service is near the site, on Headmaster Row.
- The proposed development will maintain one single-family home and facilitate the future development of an additional single-family home.
- The proposed rezoning to “R1-M” Residential Single-Family (Medium) and “R1-L” Residential Single-Family (Large) is consistent with existing zoning along Cindy Klassen Way and Bonner Avenue.
- The size, width and zoning of the proposed lots are consistent with three of the four approved abutting lots. Specifically, Lot 1 which is zoned “R1-M” Residential Single-Family (Medium), is 54.8 feet wide and is 5351 square feet in area, Lot 10, which is zoned “R1-L” Residential Single-Family (Large), is 54.8 feet wide and is 5993 square feet in area, Lot 11, which is zoned “R1-L” Residential Single-Family (Large), is 58.3 feet wide and is 6694 square feet in area.
- The proposed northerly lot would be significantly wider and larger than the existing lot to the immediate east, however, the new lot is compatible with the existing lot.

REASONS FOR THE RECOMMENDATIONS

The Urban Planning and Design Division recommends approval of Schedule “A” to this report because:

- The proposed plan of subdivision and rezoning, and the associated development, comply with *OurWinnipeg* and *Complete Communities*.
