**Critical Path:** Lord Selkirk – West Kildonan Community Committee – Standing Policy Committee on Property and Development – Executive Policy Committee – Council as per the *Development Procedures By-law* and *The City of Winnipeg Charter*.

**RECOMMENDATIONS**

1. That Zoning Agreement under File DASZ 33/07, (By-law No. 34/08), be amended as follows:
  - A. That Clauses 3-7 be deleted and replaced with the following clause:
 

*That the maximum number of dwelling units on the subject lands shall not exceed 200.*
2. That the Director of Legal Services and City Solicitor be requested to prepare the necessary Amending Agreement to Zoning Agreement DASZ 33/07, (By-law No. 34/08) as approved in aforesaid Recommendation 1.
3. That the Proper Officers of the City are hereby authorized to execute said Amending Agreement.
4. That the Director of Legal Services and City Solicitor be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.

**REASON FOR THE REPORT**

- The property owner wishes to delete conditions of this zoning agreement and requires approval to do so.

- The clauses of the zoning agreement are specific to the development of a community park which can no longer be established because buildings have been erected on the property.

## IMPLICATIONS OF THE RECOMMENDATIONS

- If the recommendations of the Planning and Land Use Division are concurred in, the subject clauses will be deleted.

## HISTORY

The subject site was rezoned to a “PR1” Parks and Recreation District under DASZ 33/07 to accommodate a privately owned and publicly accessible community park. This rezoning was part of a larger subdivision and rezoning application where the balance of the lands were rezoned to “RM2” (now “RMF-S”) to enable the renovation of existing and the construction of new units for a total of 192 multi-family dwelling units. The establishment of the privately owned park space was in exchange for an adjacent city owned park space made available to the developer, with the understanding as negotiated through the rezoning process, that the developer would be responsible for developing the “PR1” lands as community park space for public use. Since the approval of DASZ 33/07 two buildings were constructed without the issuance of building permits and with portions resting on the lands zoned “PR1” such that each building extends approximately 45 feet into the lands zoned “PR1”. Since the “PR1” zoning district does not accommodate residential development of any kind, the applicant has applied to rezone the subject property to an “RMF-S” Zoning District under the associated file DAZ 233/2013 to enable the buildings to remain. **The subject application is to amend the Zoning Agreement of DASZ 33/07 to remove the clauses related to the development of the community park** – conditions that serve no relevancy in the context of the parcel not being developed as a park.

**RECOMMENDATION:** Approval

**REPORT SUMMARY**

The Urban Planning Division recommends the application be approved for the following reasons:

- The subject clauses of the Zoning Agreement pertain to the development of a community park in a specific location (Parcel B) which no longer can be constructed as approved, because of the presence of buildings that encroach into these lands. See Appendix B for full Zoning Agreement Conditions.
- As per the conditions of approval of DASZ 33/2007, the developer will forfeit \$100,000 for not carrying through with the completion of the community park, as approved, on Parcel B.

## SITE DESCRIPTION

### Land Use and Zoning

The subject site is zoned "PR1" Parks and Recreation District and is located on Chamberlain Avenue between McPhillips Street and Fife Street in the Mynarski Neighbourhood of the Point Douglas Ward.

Figure 1: Approximate Boundary of the Subject Site (Aerial Flown 2012)

## SURROUNDING LAND USES & ZONING

- North:** Single-Family Residences zoned "R1-M" Residential Single-Family District.
- South:** Multi-family dwellings zoned "RMF-S" Residential Multi-Family District.
- East:** Multi-family dwellings zoned "RMF-S" Residential Multi-Family District.
- West:** Multi-family dwellings zoned "RMF-S" Residential Multi-Family District.

**DESCRIPTION OF THE PROPOSED DEVELOPMENT**

- As part of a larger multi-family development, the property developer has constructed two multi-family buildings partly on lands that are zoned “PR1” Parks and Recreation District.
- As per DASZ 33/07 the subject lands (Parcel B) were rezoned to “PR1” Parks and Recreation District to accommodate a privately owned, but publicly accessible community park. The City did own park lands in the development area known as the Troy Tot Lot, which were declared surplus to the City’s needs and sold to the developer with the expectation that the developer would install a community park in a more strategic location (Parcel B).
- To accommodate the buildings as they have been constructed, the property developer has applied to rezone the subject lands to an “RMF-S” Residential Multi-Family Zoning District under the concurrent application DAZ 233/13. Under the current zoning of the subject site (“PR1”) residential development is not a permitted use.
- The applicable clauses of the Zoning Agreement for DASZ 33/07 relate specifically to the development of the subject lands as a community park, hence the “PR1” zoning designation. The subject lands have a specific geography and shape, comprising 20, 400 sq ft of land area (~ 82ft X 240 ft).
- As per the conditions of the zoning agreement it is noted that plans for the development of the community park were submitted to and subsequently approved by the Public Service on Aug. 12, 2012. The approved plans are consistent with the size and dimensions of the subject lands (Parcel B) as approved through DASZ 33/07 and By-Law No. 34/2008.
- Despite the “PR1” zoning of the subject lands and the approved site plan for a community park, two buildings have been erected in such a manner that the each project into the subject lands (community park) by approximately 45 feet.
- The introduction of the buildings on the lands intended for the community park space mean that the community park cannot be built as approved. As a result, the zoning agreement clauses that make up the subject of this application do not relate to what has been constructed on the land and are for all intents and purposes are meaningless should the buildings remain.
- The result of all this is that the city will be out a park, and the developer will be out \$100,000.

**RECOMMENDATION**

The Urban Planning Division recommends the application be approved because:

- The subject clauses as they remain have little function as they pertain to the lands being developed as a park.
- The penalty for not establishing the park was dealt with in the conditions of approval for DASZ 33/07, where funds put up by the developer (\$100, 000) would have been returned upon the completion of the community park. A conditional of approval of the associated DAZ 233/13 application will reallocate those funds for park purposes elsewhere in the community.
